DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/7/05 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Tarcza on 2/25/05.

The application has been amended as follows:

- 1) In claim 1, after the concentration step which ends on line 6 and ends with "the particles;", insert --sedimenting the concentrated particles to a second solid phase;--.
- 2) In claim 1, line 7, change "across a second slanted solid phase" to --across the second slanted solid phase--.
- 3) In claim 3, line 2, before "solid phase" insert --second slanted--.

Allowable Subject Matter

3. In view of applicant's amendments and arguments, as well as the Examiner's Amendment above, claims 1-10 and 28-30 are allowed.
4. The following is an examiner's statement of reasons for allowance: the closest prior art of record fails to disclose or teach a method of detection comprising all the limitations of the presently pending claims.

Claims 1-10 and 28-30 are thus novel and unobvious over the cited art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1-10 and 28-30 are allowed.
